## **The Harder You Look, The Better We Look...**

Danko has demonstrated our ability to fulfill the needs and desires of our customers with superior craftsmanship using innovative construction techniques and the finest materials available.

Danko designs and custom builds Quick Response vehicles with aluminum bodies in several styles to fit your specifications. Our quick response line includes mini-pumper, rescue, flatbed and quick attack vehicles. Each style has been individually designed using over 40 years of fire apparatus manufacturing experience.
