

Quick Attack Rescue Apparatus

*We have built our company on reliability, trust,
customer service and superior quality since 1974...*

Q-290

The harder you look,
The better we look...

Danko has demonstrated our ability to fulfill the needs and wants of our customers with superior craftsmanship using innovative construction techniques and the finest materials available.

Danko custom builds and designs Quick Response vehicles with aluminum bodies in several styles to fit your specifications. Our quick response line includes mini-pumper, rescue and quick attack vehicles. Each style has been individually designed using over 37 years of fire apparatus manufacturing experience.
